

JOB POSTING

MAINTENANCE SUPERVISOR

LOCATION: Faulkner Plant
Faulkner, Manitoba

COMMENTS ON IMMIGRATION: If you are applying for a position in another country, please note that the position and your application will have to be considered from an immigration perspective.

DUTIES AND RESPONSIBILITIES:

- Ensure the highest standards are achieved and maintained in terms of safety, personnel and efficiency.
- Coordinate mechanical and electrical maintenance activities on stationary and mobile equipment.
- Work well in a Team environment and develop the skills and capabilities of the maintenance team.
- Manage the implementation of capital and equipment improvement projects in all processes.
- Provide process engineering support to enhance production, plant efficiency, and product quality.
- Manage the Purchase Inventory Maintenance Planner to ensure the maintenance parts inventory is effectively managed including critical spares and will be expected to push for the full implementation of the MAPUS program.
- Schedule and implement short and long-term maintenance planning functions.
- Investigate and determine the root cause of problems causing equipment failure, and develop corrective solutions.
- Perform “On-call” duties on rotation with the supervision team.
- Manage the plant maintenance parts inventory.
- Communicate clearly and effectively with all members of the work force.

QUALIFICATIONS:

- Proven track record of developing and maintaining a safe work culture.
- Proven teambuilding and leadership skills.
- Bachelor of Science degree mechanical or an equivalent combination of education and experience in maintenance or manufacturing environment.
- Three to five years of related industrial experience.
- Superior ability to coach, motivate, and develop employees
- Strong communication (written and oral)
- Ability to effectively coordinate and manage multiple projects with proven trouble shooting and decision-making skills.
- Computer literate – Knowledge of Microsoft programs, JDE system and AutoCAD.
