

GRAYMONT

JOB POSTING

SENIOR PROCESS ENGINEER

LOCATION: Pleasant Gap, PA

COMMENTS ON IMMIGRATION: If you are applying for a position in another country, please note that the position and your application will have to be considered from an immigration perspective.

DUTIES AND RESPONSIBILITIES:

This position is expected to provide the skills to ensure that the plant processes operate at optimum efficiency.

- Analyze and identify process improvement opportunities including; safety, efficiency, quality and emissions related activities relating to limestone processing, calcination, hydration, flue gas scrubbing, waste heat recovery and electrical power generating processes. Develop written scope of work that is consistent with Graymont project governance. Be capable of managing the implementation of these process improvement opportunities.
- Actively participate in the plant management team. Participate in plant safety, environmental and community committees and other plant functions as requested by plant management.
- Provide assistance to support required permitting activities.
- Provide assistance as required to maintain plant operational and maintenance functions.
- Identify, develop, continuously improve and communicate the best available process practices developed with Graymont's process group.
 - Ensure that "all critical modification" to processes are communicated with Graymont's process and engineering support group.
 - Participate in the development of project concepts, flow sheets, equipment specifications and layouts that incorporate Graymont and industry best practices.
- Perform key job functions with minimal supervision and direction.

QUALIFICATIONS:

- BS Engineering.
- Proven track record of developing and maintaining a safe work culture.
- Proven teambuilding and leadership skills.
- 15 plus experience in lime, cement or similar industrial minerals or heavy industries.
- Strong computer skills.
- Demonstrated aptitude and learning ability in pyro processing and process control applications.
- Self starter with very strong teamwork and communication skills.
